**INFORMATION ON INDIANA'S U.S. GOVERNMENT ECA**

ILEARN U.S. Government ECA is an optional assessment that may be administered to Indiana high school students upon completion of the U.S. Government course. The results of the ECA are not incorporated in a school's accountability determinations, but schools may choose to use student scores when calculating course grades. Overall student results are reported at two proficiency levels (Below Proficiency and At Proficiency). The report provides your family with useful information, including how your child performed on the ECA and whether the performance meets state proficiency standards.
